Our Work

Transformative window treatments: from sleek roller shades to color-matched covers and automated systems, each design complements elegant home finishes and enhances functionality without overshadowing the space.

[See More](#)

Contrast Shades

Dual Shades provide light and privacy within the same window.

Seamless Automation

With a slim, patented mounting system we can integrate ourselves in to the clients home or office with a seamless, easy to maintain but yet tailored window shade solution.

Versatile Shade Solutions

Dual shades for privacy and light, fit in 4" x 4" space, painted to match home.

Minimalist Chic

Roller shades offer sleek, clean style, enhancing rooms without overwhelming the space.

Stylish Automation

Enhance the lighting in every setting picking the right fabric for the right location.

Discreet Design

Automated shades hidden behind color-matched covers for a seamless look.

Stunning Home Enhancement

Color-matched covers and automated lifts enhance a client's magical home.

Cooling Elegance

Polycarbonate screen reduces heat, glare, and sun while maintaining views.

Elegant Integration

Individual details create individual spaces. Here we made our shade system look like a built in part of the wall matching the hardware to the almond colored window frames.

Bright and Warm Design

Warm kitchen with wood tones, fresh colors, and smart, color-matched shades, without overwhelming the space.

Elegant Design Harmony

Solutions for every window, even the ones that are the hardest to get to.
