

Outdoor shades

Description

Outdoor Shades

Product Features

Made to withstand even the harshest environments the Site Shade Company outdoor shade system combines ultimate performance and functionality with the usual attention to detail found on all Site Shade Company products. With fabrics ranging from 1% to 30% openness in a variety of colors you can now convert virtually any outdoor space in to an actual year round environment.

Fabric Shading Effect

All of our outdoor fabrics are wind proof, sun proof, water proof and completely mildew resistant
